HEALTHCARE
SOLUTIONS

vCLINiC

CLINiC-VC-10S-A01

The vCLINiC™ (powered by Vidyo) is direct connect, easy to use cloud-ready clinical communication solution designed to perform in a wide variety of clinical settings.

- Tele-ICU monitoring, identifying early intervention opportunities for critical, high cost patients
- Virtual rounding and patient consultations with real-time high quality video
- Multi-provider consultation at bedside
- Care coordination, patient education and discharge planning

FEATURES

The vCLINiC provides unmatched video quality and reliability, crystal clear audio with a solid state, fanless design to minimize sound disturbance and ensure the maximum levels of unit performance uptime.

- Incorporates Vidyo's dynamically adaptive end point software for continuously optimized video
- Fully optimized for VidyoCloud
- Optional integration with top EHRs
- Electronic protection for health information (ePHI); enterprise security standards with TLS, SRTP, H.235 and AES 128-bit encryption
- HIPAA-compliant Business Associate Agreement (BAA)
- Flexible design allows for use as a wall, desk, arm or cart mount
- Extensibility through optional expansion modules

The vCLINiC, is also available as a hybrid cloud solution, leveraging Vidyo's patented routing technology this managed service offering manages traffic within the hospital system's network.

IMPROVE OUTCOMES IN COMPLEX CARE

Founded on Iron Bow's successful Clinical Care Device (CLINiC) technology platform, the vCLINiC helps health systems transform care delivery models to realize the benefits of virtual care.

- Reduce total length of stay and readmissions rates
- Increase access to specialists
- Facilitate multispecialty, multidisciplinary clinician collaboration
- Enhance patient and family satisfaction scores through virtual rounding – engaging patient and family in care decisions
- Optimize scarce resources (care coordinators, case managers and other staff) especially for multi-campus hospitals

PRODUCT SPECIFICATIONS

- Hermetically sealed, highgrade fanless computer running VidyoConnect VCC-100 software (version 3.3.24, or higher)
- High definition pan/tilt camera with a10x optical/10x digital zoom
- Dual infrared illuminators for nighttime or darkened room operation
- 24" Full HD display
- 23 lbs.
- Vidyo IR remote control and USB receiver

MANAGED SERVICES — PROACTIVE MONITORING AND SUPPORT

With our deep technical expertise and understanding of your workflow process, we are uniquely qualified to not only deliver best in class telemedicine solutions, but also manage the supporting IT infrastructure. Our technical experts remove the burden from your internal IT teams to allow them to focus on your clinical mission. Iron Bow supports the vCLINiC with optional proactive monitoring and managed services and a 24x7x365 call center. Through our managed service offerings, Iron Bow can assume responsibility for the management of your telehealth technology including security updates and patching, software updates, help desk and troubleshooting as well as warranty management.
